Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claims 1, 3-6, 8-17, 19 and 21 are withdrawn in view of the newly discovered reference(s) to Fredrickson et al. Lee and Krogman.

Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 3-6, 8-10, 13-17 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: there is no structural relationship between the attachment arm and the shield.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 2885

2. Claims 3-6, 8-17 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Fredrickson et al. Fredrickson et al discloses a light housing **for at least partially shielding a light source from a viewer**, comprising: a shield 10 having a rear wall 11 **located between the light source and the viewer**, wherein the rear wall 11 has a top edge and a bottom edge, and **is formed to partially enclose the light source**; b) at least one attachment arm 13 **for attaching the shield to a fixed object**; and c) an aperture 22 **where light source extends through aperture**) in the rear wall of the shield, wherein the aperture is contiguous with the bottom edge of the rear wall and **wherein a rear portion of the light source is positioned within the aperture**.

Note: The recitations in bold are intended use limitations and given little patentable weight.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 3-6, 8-17 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Krogman. Krogman discloses a light housing **for at least partially shielding a light source from a viewer**, comprising: a shield 10 having a rear wall 24

located between the light source and the viewer, wherein the rear wall 24 has a top edge and a bottom edge, and **is formed to partially enclose the light source**; b) at least one attachment arm 26 **for attaching the shield to a fixed object**; and c) an aperture (see figure 4, where arm comes into shield 10) **where light source extends through aperture**) in the rear wall of the shield, wherein the aperture (see figure 4) is contiguous with the bottom edge of the rear wall and **wherein a rear portion of the light source is positioned within the aperture**.

Note: The recitations in bold are intended use limitations and given little patentable weight.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fredrickson et al in view of Lee '361. Fredrickson et al discloses the claimed invention except for the teaching of using two stakes rather one. Lee '361 teaches using two stakes for holding a lighting device. It would have been obvious to one skilled in the art at the time the invention was made to modify the lighting device of Fredrickson et al to

include two arms rather than one arm in order to effectively hold the lighting device in the ground.

Response to Arguments

Applicant's arguments with respect to claims 1, 3-6, 8-17, 19 and 21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

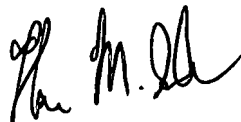

Applicant's amendment filed 09/11/06 necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
